Each year AZeats.com works with up to four organizations with their fundraising. Fund raising campaigns may start as early as January 15 and end no later than September 31.

The AZeats.com Restaurant Gift Certificate Fundraising Program mission is to provide organizations a simple and effective means of fund raising, while providing participants with a high quality product that everyone can use. Restaurant Gift Certificates have the highest perceived value to the public. Instead of feeling obligated to purchase items such as wrapping paper and cookie dough your supporters will eagerly purchase restaurant gift certificates. AZeats.com offers actual restaurant gift certificates issued by the restaurants, not coupons disguised as a gift certificate with numerous restrictions.

AZeats.com offers two types of campaigns to allow organizations flexibility to choose that which best suites their needs.

Option 1: Bulk Sales *

This offers your organization the greatest per sale income potential and allows your members to make direct sales. This option works well selling to friends, family, the public, and at your events. Your organizations purchases \$500.00 in face value of restaurant gift certificates for \$300.00 and sell them at full face value. With this option your organization makes 66% return on each \$300.00 purchase.

* Ask about participating restaurants.

Option 2: On-Line Shopping Cart *

AZeats.com will program an on-line shopping cart selling restaurant gift certificates hosted on our servers, handle credit card transactions, order fulfillment, shipping and handling. Each month AZeats.com will send your organization a check for 15% of sales. This option is well suited for longer campaigns and organizations that have a high traffic web site, email newsletter with a minimum of 1,000 subscribers or are planning a bulk direct mailing and able to promote this fund raising activity.
